- Authority for Policy Development Rests with the President
 - President Works in Collaboration with the Faculty
 - Five University Divisions under the President
 - Academic Affairs
 - Finance & Administration
 - Student Services
 - Information Technology
 - University Advancement
-

Mission Statement

California State University Channel Islands provides undergraduate and graduate education that facilitates learning within and across disciplines through integrative approaches, emphasizes experiential and service learning, and graduates students with an international perspective that includes facility in two languages. To accomplish its mission, the university strives to create learning communities that involve all elements of the university, integrate community and university resources, build community-university partnerships, engage the educational community from preschool through community colleges, provide opportunities for adult education and lifelong learning, and preserve and enhance the culture and environment of the region.
